DETAILED ACTION

1. This communication is responsive to the application filed 03/10/2002.

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3 and 55, drawn to the structures/structural elements of a hearing aid;
 - II. Claims 4-51, drawn to the structures/structural elements of a frequency-warping processing system;
 - II. Claims 52-54, drawn to the structures/structural elements of a DSP system having means of power spectrum processing.
3. Inventions I, II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP ' 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the invention I only drawn to a directional hearing aid. The subcombination has separate utility such as an acoustic system other than a hearing aid.
4. Because these inventions are distinct for the reasons giving above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and the search required for Group III is not required for Groups II, or I. Restriction for examination purposes as indicated is proper.

Art Unit: 2643

6. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
